Meeting Agenda

Date: 2014-03-27
Facilitator: Joachim von Hacht
Participants: Emma Nyborg, Kristofer Yffén, David Oskarsson

1. Objectives

Nothing to resolve

2. Reports

Now all the members in the group has their development environment set up and   access to both the Git-repo and our Google Drive.

3. Discussion items

The GUI should show some pre-defined alternatives for key, signature and length. The list for genres will be filled when the program starts. Then it will read the overhead of all abc-files and add genres that wasn't added before.

The files needed are revised and changed accordingly. Add packages and a main-class.

4. Outcomes and assignments

Until tomorrow (28/3) we all should finish the slides for the presentation. We should prepare what to say as well.

5. Wrap up

Next meeting will most likely be on Tuesday 1/4.
